

Teaching practice

The practice is a teaching practice and trainee GPs and medical students may, as part of their training, be required to sit in with a GP or nurse during consultations with patients.

You will always be asked if you consent to this prior to your consultation. If you do not consent, the trainee GP or student will not sit in on your consultation.

How to register at the practice

The quickest way to register at the practice is to use the practice website or this link.
